## Door County Cherries

- Cherry picking in Door County is a major tourist attraction on the peninsula.
- Door County has the nickname of Cherryland USA for their abundance of cherries.
- This pastime will remain open this summer despite COVID-19.
- However, there are some precautions being taken at the cherry picking orchards such as social distancing and wearing masks inside orchards' shops.
  - Orchards are also taking additional steps to ensure safety such as hand sanitizer stations and extra cleaning.
  - Owners of the orchards are saying that it is not difficult to socially distance when there is enough space between trees when picking cherries.
  - Pails for cherry picking are being sanitized in between customer uses.
  - Did you know the average cherry tree has 7,000 cherries? That is enough cherries to make 28 cherry pies!
